Index of Subjects

African buffalo, experimental induction of the carrier state of *Theileria parva lawrencei* in, 425
isolation of *Theileria* from, 413
Aggregation, temporal changes in, 583
Amino acid metabolism, in *Moniliformis moniliformis*, 533
Anolis lineatopus, helminth infections of, 399
Antibodies, to *Encephalitozoon cuniculi* in man, detected by ELISA, 209
Antibody, blocks expression of immunity in human schistosomiasis mansoni, 281
Antibody isotypes, requirement of for 'late' passive transfer of immunity to *Schistosoma mansoni*, 509
Antigen, from *Schistosoma mansoni* egg cross-reacts with schistosomulum surface, 255
Antigen processing, of the merozoite surface antigens of *Plasmodium falciparum*, 199
Antigenic variants, of *Plasmodium chabaudi*, mosquito transmission of, 443
Anti-thymocyte serum, effect of on the eosinophil and lysophospholipase responses in *Trichinella spiralis*-infected mice, 115
Ascaridia galli, electrophysiology of the somatic muscle cells of, 555
Ascaris suum, electrophysiology of the somatic muscle cells of, 555

Babesia divergens, an inhibitory monoclonal antibody against, 17
Biochemical study, of the effect of Stelazine on *Hymenolepis diminuta*, 135
Biological parameters, of ovine cysticercoses, 161
Blocking antibodies, prevent the expression of immunity to schistosomiasis mansoni in young children, 281

Carrier state, of *Theileria parva lawrencei* in African buffalo, 425
Cercariae, ultra-violet attenuated induce immunity against *Schistosoma japonicum* in rats, 49
Cestode lymphocyte mitogens, occurrence and biochemical characterization of, 151
Chagas' disease, complicated by clinical *Trypanosoma rangeli* infection, 475
Characterization, of *Echinococcus granulosus* strains, by genomic cloning of DNA, 369
of *Theileria* isolated from African buffalo, 413
of *Trypanosoma brucei gambiense*, by enzyme polymorphism studies, 337
of *Trypanosoma congolense* isolates, 349
Contortin, use of for vaccination of young lambs against *Haemonchus contortus*, 385
Corynosoma semerme, ovarian development of, 123
Cross-protection, between *Onchocerca* egg antigens, 485
between two geographical isolates of *Schistosoma mansoni*, 301
Cutaneous leishmaniasis, treatment of with Formycin B, 467

Development, of *Leishmania*-induced skin lesions in rodents depends on inoculation site, 451
of *Theileria parva parva* in *Rhipicephalus appendiculatus*, 433
of the metacercaria of *Maritrema linguilla* in *Ligia oceanica*, 221
Digenean fluke, regulation of cutaneous sugar transport in, 1
Distribution, of *Ophiopsyllus reductus*, 7

Echinococcus granulosus DNA, genomic cloning of, 369
Echinococcus granulosus, lymphocyte changes during early infection with in mice, 523
surface ultrastructure during protoscolex formation in, 359
Egg antigens, of *Onchocerca* spp. confer resistance to *Onchocerca lienalis* in mice, 485
Electrophysiology, of the somatic muscle cells of *Ascaris suum* and *Ascaridia galli*, 555
Encephalitozoon cuniculi, detection of antibodies to in man by ELISA, 209
Enzyme-linked immunosorbent assay, for the detection of antibodies to *Encephalitozoon cuniculi*, 209
Enzyme polymorphism, and the identity of *Trypanosoma brucei gambiense*, 337
Eosinophilia, effect of anti-thymocyte serum on in *Trichinella spiralis*-infected mice, 115

Fasciola hepatica, resistance to in *Schistosoma mansoni*-infected rats, 55
Fasciola hepatica antigens, the use of for immunization against *Schistosoma mansoni* infection, 327
Formycin B, use of in the treatment of cutaneous leishmaniasis in mice, 467

Genomic cloning, of human *Echinococcus granulosus* DNA, 369
Glucose uptake, regulation of in a digenean fluke, 1
L-Glutamine, effect of on the tegumental membrane potential of *Schistosoma mansoni*, 233

Haemonchus contortus, vaccination against, using a protein fraction extracted from, 385
Helminth infections, of *Anolis lineatopus*, 399
Hepatic portal vasculature, effect of *Schistosoma mansoni* infection on in mice, 69
Herpetosoma, isoenzyme characterization of the trypanosomes of, 39
Host discrimination, of *Ophiopsyllus reductus*, 7
Host specificity, of *Ophiopsyllus reductus*, 7
Hymenolepis, interspecific effects of between *Moniliformis* and *Nippostrongylus*, 567
Hymenolepis diminuta, effect of Stelazine on, 135

Immune response, to *Trichinella* phosphorylcholine, 543
Immunity, induction of against *Schistosoma japonicum* in rats, 49
to *Schistosoma mansoni* in rats, 313
to *Schistosoma mansoni*, 'late' passive transfer of, 509
Immunity in human schistosomiasis mansoni, prevention of by blocking antibodies, 281
Immunization, against *Schistosoma mansoni* using *Fasciola hepatica* antigens, 327
Immunocytochemical localization, of *Trichinella spiralis* antigens using monoclonal antibody probes, 101
Inoculation site, influence of on the rate of development of Leishmanial skin lesion, 451
Isoenzyme characterization, of the trypanosomes of the subgenus *Herpetosoma*, 39

Killing, of the schistosomula of *Schistosoma mansoni* is blocked by monoclonal antibodies, 269

Lagopus lagopus scoticus, pathology of *Trichostrongylus tenuis* in, 405
Leishmanial skin lesions, development of depends on the site of inoculation, 451
Leishmania spp., American, treatment of with Formycin B, 467
Ligia oceania, development of the metacercaria of *Maritrema linguilla* in, 221
Localization, of surface and intracellular antigens of *Trichinella spiralis*, 101
Lymphocyte mitogens, in cestodes, 151
Lymphocyte populations, changes in during experimental infection of mice with *Echinococcus granulosus*, 523
Lysophospholipase response, effect of anti-thymocyte serum on in *Trichinella spiralis*-infected mice, 115

Macroschizont antigen, monoclonal antibodies against recognize stage-specific antigen of *Theileria parva*, 29
Maritrema linguilla, development of the metacercaria of in *Ligia oceanica*, 221
Mathematical model, of the life-cycles of *Taenia hydatigena* and *T. ovis*, 181
Membrane potential, across the tegument of *Schistosoma monsoni*, effect of amino acids on, 233
Merozoite invasion, inhibition of by a monoclonal antibody against *Babesia divergens*, 17
Merozoite surface antigen, processing of the precursor of, 199
Metabolism, of amino acids in *Moniliformis moniliformis*, 533
Metronidazole, comparison of with niridazole as growth inhibitors of *Trichomonas vaginalis*, 93
Mitogens, occurrence and biochemical characterization of in cestodes, 151
Moniliformis, interspecific effects of between *Hymenolepis* and *Nippostrongylus*, 567
Moniliformis moniliformis, amino acid metabolism in, 533
Monoclonal antibodies, against macroschizonts recognize stage-specific antigens of *Theileria parva*, 29
against schizonts used in the characterization of *Theileria* from African buffalo, 413
block the killing of *Schistosoma mansoni* schistosomula, 269
Monoclonal antibody, inhibition of merozoite invasion by, in *Babesia divergens*, 17

Monoclonal antibody probes, use of for immunocytochemical localization of antigens of *Trichinella spiralis*, 101
Mosquito transmission, of the antigenic variants of *Plasmodium chabaudi*, 443
Muscle cells, electrophysiology of in *Ascaris suum* and *Ascaridia galli*, 555

Nippostrongylus, interspecific effects of between *Moniliformis* and *Hymenolepis*, 567
Niridazole, reduction of by *Trichomonas vaginalis*, 93

Onchocerca lienalis, resistance to is conferred by egg antigens of various *Onchocerca* spp., 485
Ophiopsyllus reductus, host specificity in, 7
Ovarian development, of *Corynosoma semerme* in rats, 123
Ovine cysticercoses, biological parameters of, 161

Parasite interactions, between *Moniliformis*, *Hymenolepis* and *Nippostrongylus*, 567
Passive transfer, of immunity to *Schistosoma mansoni*, 509
of resistance to *Schistosoma japonicum* in rabbits, rats or mice, 497
Pathological changes, in hepatic portal vasculature in *Schistosoma mansoni*-infected mice, 69
Pathology, correlation of with resistance to reinfection with *Schistosoma mansoni*, 81
Phosphorylcholine, of *Trichinella* spp., immune response to, 543
Plasmodium chabaudi, mosquito transmission of the antigenic variants of, 443
Plasmodium falciparum, antigen processing of the merozoite surface antigens of, 199
Population dynamics, in echinococcosis and cysticercosis, 161, 181
Proterometra macrostoma, regulation of cutaneous sugar transport in, 1
Praziquantel, effects of on the structure of *Schistosoma mansoni*, 243
Protoscolex formation, changes in the surface ultrastructure during, in *Echinococcus granulosus*, 359

Red grouse, pathology of *Trichostrongylus tenuis* in, 405
Resistance, between *Schistosoma mansoni* and *Fasciola hepatica*, 55
correlation of with pathology during reinfection with *Schistosoma mansoni*, 81
passive transfer of to *Schistosoma japonicum*, 497
to *Onchocerca lienalis* conferred by egg antigens of various *Onchocerca* spp., 485
to *Schistosoma japonicum* in rats, 49
Rhipicephalus appendiculatus, development and survival of *Theileria parva parva* in, 433

Schistosoma japonicum, induction of species-specific immunity against in rats, 49
passive transfer of resistance to in rabbits, rats or mice, 497
Schistosoma mansoni, blocking of the killing of the schistosomula of, 269
cross-reaction between egg antigen and schistosomulum surface antigen of, 255
effect of on hepatic portal vasculature in mice, 69
effects of praziquantel on, 243
immunity to in rats, 313
immunization against, using *Fasciola hepatica* antigens, 327
'late' passive transfer of immunity to, 509
maintenance of the tegumental membrane potential of by L-glutamine, 233
resistance to in *Fasciola hepatica*-infected rats, 55
resistance to reinfection with correlates with pathological changes, 81
two geographical isolates of, 301
Schistosomiasis mansoni, expression of immunity to is prevented by blocking antibodies, 281
Schistosomula, blocking of the killing of by monoclonal antibodies, 269
Schistosomulum, surface antigen of cross-reacts with egg antigen of *Schistosoma mansoni*, 255
Skin lesions in *Leishmania*, development of depends on inoculation site, 451
Stage-specific antigen, of *Theileria parva* is recognized by anti-macroschizont monoclonal antibodies, 29
Stelazine, effect of on *Hymenolepis diminuta*, 135
Subgenus *Herpetosoma*, characterization of trypanosomes of by isoenzyme analysis, 39
Sugar transport, regulation of in a digenean fluke, 1
Surface antigens, of two geographical isolates of *Schistosoma mansoni*, 301

Survival, of *Theileria parva parva* in its tick vector, 433

Taenia hydatigena, mathematical model of the life-cycle of, 181
Taenia ovis, mathematical model of the life-cycle of, 181
Tegumental membrane potential, requirement of L-glutamine for the maintenance of in *Schistosoma mansoni*, 233
Tegumental repair, effect of praziquantel on in *Schistosoma monsoni*, 243
Temporal changes, in aggregation, 583
Theileria, isolation of from African buffalo, 413
Theileria parva, monoclonal antibodies against the macroschizonts of, 29
Theileria parva lawrencei, experimental induction of the carrier state of, 425
Theileria parva parva, development and survival of in *Rhipicephalus appendiculatus*, 433
Transmission, of the antigenic variants of *Plasmodium chabaudi*, 443
Trichinella spiralis, antigen localization in using monoclonal antibody probes, 101
Trichinella spiralis-infected mice, effect of anti-thymocyte serum on, 115
Trichinella spp., immune response to phosphorylcholine from, 543
Trichomonas vaginalis, reduction of niridazole by, 93
Trichostrongylus tenuis, effect of on the caecal mucosa of wild red grouse, 405
Trypanosoma brucei gambiense, enzyme polymorphism and the identity of, 337
Trypanosoma congolense, characterization of various isolates of, 349
Trypanosoma rangeli, infection with as a complication of Chagas' disease, 475
Trypanosomes, characterization of 6 species of by isoenzyme analysis, 39

Ultrastructure, of the ovaries of *Corynosoma semerme*, 123
Ultrastructural changes, of the surface during protoscolex formation in *Echinococcus granulosus*, 359
Ultrastructural investigation, of the effect of Stelazine on *Hymenolepis diminuta*, 135
Ultrastructural observation, of the development of the metacercaria of *Maritrema linguilla* in *Ligia oceanica*, 221
Ultrastructural study, of the effects of praziquantel on *Schistosoma mansoni*, 243
of the effect of *Trichostrongylus tenuis* on the caecal mucosa of wild red grouse, 405

Vaccination, of young lambs with a protein fraction extracted from adult *Haemonchus contortus*, 385
Vascular pathology, effects of *Schistosoma mansoni* on in mouse liver, 69
